

# JAGUAR E-TYPE 4.2 L SERIES 1 COUPE'

---

Converted by Pedro Boticas from Toca Race Driver 2 to NFS6, converted to NFS4 by NFS Owner and converted to NFS3 by Opus IV | [opusivgamer@gmail.com](mailto:opusivgamer@gmail.com)

This is a Jaguar E-Type 4.2 Coupè, among the most beautiful sports cars of the 60s, now available for Need for Speed III.

This model is not mine, since it is a conversion from Need for Speed IV: High Stakes of the same car converted by NFS Owner and originally created by Pedro Boticas for Need for Speed: Hot Pursuit 2, so I give credits to them.

This car has realistic performance, steering and rolling, is available to AI opponents drivers in the class C and in all supported languages. To install it put "jxke" folder that you find in the downloaded Zip file into "C:/Program Files/Electronic Arts/Nfs3/Nfs3/Gamedata/Carmodel".

A slide is also available named "03\_00.qfs", that will appear on the screen before every race, to insert in the path "C:/Program Files/Electronic Arts/Nfs3/Nfs3/Fedata/Art/Slides". You are allowed to convert this car to another Need for Speed version or to another game or using it as a basis for your projects only with the permission of the original author of this model (Pedro Boticas), by contacting him at this e-mail address: [pedro\\_boticas@hotmail.com](mailto:pedro_boticas@hotmail.com)
