

# PURSUIT JAGUAR XJR 100 X308

---

Created by Nils Jüttemeier (XJ220) for NFS4 and converted by Opus IV Gamer to NFS3 | [opusivgamer@gmail.com](mailto:opusivgamer@gmail.com)

This is a Pursuit Jaguar XJR 100 X308, the luxury sedan built by the Coventry car manufacturer, in the sportier version of the range, the XJR 100 4.0 cat Super Charged, now available in police version for Need for Speed III.

This model is not mine, since it is a conversion from Need for Speed IV: High Stakes of the same car created by Nils Jüttemeier (aka XJ220), so I give credits to him. Furthermore this car is available in 5 different countries (USA, Australia, UK, France, Germany).

This car has realistic performance, steering and rolling and is available in all supported languages. This model uses the same dashboard as the NFS3 Jaguar XKR while the engine sound is from NFS4's XKR. To install it put the following folders: "p308", "a308", "e308", "f308", "g308", that you find in the downloaded Zip file into "C:/Program Files/Electronic Arts/Nfs3/Nfs3/Gamedata/Carmodel"; the various folders correspond to the various versions of the countries of origin of this car.

In the zip file you will also find a folder called "traffic pursuit", inside you find 5 sub-folders with the names of the countries of the versions of this car, choosing which country you want copy the "car.viv" file and paste it into the following path: "C:/Program Files/Electronic Arts/Nfs3/Nfs3/Gamedata/Carmodel/Traffic/Pursuit/0000", replacing the already existing "car.viv" file; repeat the same operation for all other folders "0001", "0002", "0003", "0004", "0005". Doing this you will be chased by many Pursuit Jaguar XJR 100 X308 in Wanted mode.

You are allowed to convert this car to another Need for Speed version or to another game or using it as a basis for your projects only with the permission of the original author of this model (Nils Jüttemeier aka XJ220) by contacting him at this email address: "xj220\_nj@yahoo.de".
